Psychiatry Services: Exclusion Criteria

The purpose of this document is to be forthcoming about what services we do and do not offer so that referrers do not use their valuable time pursuing a referral which will be declined.

Psychiatric providers at Farrar and Associates Mental Health do not provide the following services:

- Disability evaluations
- Forensics evaluations for civil or criminal suits
- Competency evaluations
- Evaluation for child custody and/or visitation rights
- Evaluations for surgery clearance
- Suboxone or methadone treatment

We do not provide services to:

- Patients without an established primary care provider
- Patients who are on a mental health treatment commitment
- Patients who are unwilling to allow collaboration with their primary care provider and therapist
- Patients with dementia or geriatric patients with complex medical issues
- Patients who have a close relationship with an established patient already in care (conflict of interest) or with an employee of Farrar and Associates Mental Health.

We do not provide care to patients whose primary issue is listed below. These patients would be best served by a referral to a specialized treatment provider:

- personality disorders
- chronic pain
- eating disorders
- substance abuse
- dissociative identity disorder

Insurance:

We are not contracted with United Behavioral Health or United Health plans. Please see our [website's FAQ](#) for a current list of insurance carriers that we accept. We have very limited capacity to accept new patients with Medicare and Medicaid.
